Classifications:

Senior

A competitor is a Senior who has won any Intermediate or Senior 2,000-meter Event at a designated USRowing national championship regatta or at the Royal Canadian Henley Regatta, and who has not advanced to the status of Elite.

Intermediate

A competitor is an Intermediate who has not advanced to the status of Senior or Elite.

U19

A Competitor may compete in the U19 category until December 31 of the year of his or her 18th birthday.

U17

A Competitor may compete in the U17 category until December 31 of the year of his or her 16th birthday.

Elite

A competitor is Elite who has been a member of the USRowing Senior National Team or any country's Senior National Team as a competitor (including as a spare) or a medalist at the U23 World Championships in the category at issue.

Eligibility:

Rowers may compete in a higher skill class, but not a lower skill class. For example, a Senior athlete may compete in an Elite Event, but not an Intermediate Event.

A Competitor's classification by skill shall be determined separately with respect to Sweep Events and Sculling Events. Except for the provisions of the Elite status, a Competitor's classification in one category shall not affect his or her classification in the other. A competitor's classification by skill shall not be determined separately with respect to open events and lightweight events, and thus a Competitor's status as Elite, Senior, or Intermediate is applicable regardless of weight class.

A coxswain may compete in any of those categories regardless of his or her classification by skill with the exception that a coxswain who is not an amateur shall not compete in events classified by skill as Intermediate or Senior or classified by age as Youth.

A Competitor, including a Coxswain, who does not comply with Rule 4-104.1(a) ("Classification by Age") shall not compete in a U19 or U17 event.

A Competitor's eligibility to compete in events classified by age is not affected by his or her classification by skill.

Unsportsmanlike Conduct:

Unsportsmanlike conduct includes, but is not limited to, failure to heed the instructions of race officials, use of obscene language or gestures, delaying a race without just cause, intentional or flagrant disregard of principles of safety and fairness, or abusive behavior toward any official, team member, or spectator.

A crew that engages in unsportsmanlike conduct may be assessed a penalty by a race official.

Any team member, including a competitor, who engages in unsportsmanlike conduct at any time during the regatta may have his or her further participation at the regatta curtailed or prohibited by a race official.

Lineups:

All entries should include the lineup of athletes to compete as part of that entry. All entries must have names no later than July 8, 2015.

After July 8, entries without completed lineups will be considered late entries and subject to the fees and restrictions associated with such designation. Entries with placeholder names, such as "A Rower", will be considered incomplete.

Substitutions:

After July 8, 2015, crews may substitute up to one half of their line-up, as well as the coxswain.

No substitutions are allowed for single sculls after July 8, 2015 in accordance with the USRowing Rules of Rowing. Substitutions in single sculls must be completed as a scratch, followed by a late entry request for the new competitor.

Lineup changes shall be made online through RegattaCentral until July 8.

Lineup changes will be accepted on site beginning July 14, 2015. On-site changes must be submitted to USRowing a minimum of one hour before the first race of an event.

After the first race in an event has taken place, the composition of a crew shall remain the same and no substitution shall be allowed for any subsequent races in that event, except as provided in Rule 5-207 ("Illness of Competitors"). This rule will be strictly enforced.

Scratches:

Entries may be scratched without penalty through RegattaCentral until July 5, 2015. All scratches made after this date are subject to a forfeiture of the entry fees.

Scratches made beginning the first day of racing for the regatta will be subject to a \$50 scratch fee.

Crews failing to notify USRowing of their intention to scratch prior to one hour before the race in which the crew is entered will be subject to a no-show fee of \$100 due before the organization will be allowed to compete in subsequent races.

Weigh-Ins:

Competitors shall be weighed in racing uniform without shoes or other footgear.

Lightweights:

The weight of Rowers in lightweight events shall be determined once each day during either the Weigh-in Window or the Adjusted Weigh-in Window, but not both.

Competitors who fail to weigh-in during either the Weigh-in Window or the Adjusted Weigh-in Window shall be deemed ineligible to race.

When an Adjusted Weigh-in Window is created due to a scheduling change, a Competitor may weigh-in during either the original Weigh-in Window or the Adjusted Weigh-in Window, but not both, provided

the Competitor completes his or her weigh-in prior to the newly Scheduled Time of the Race and on the same day as the newly Scheduled Time of the Race.

“Adjusted Weigh-in Window”: Should Race Officials adjust or alter the racing schedule for compelling reasons, changing the amount of time between the Weigh-in Window and the newly Scheduled Time of the Race, an Adjusted Weigh-in Window shall be created. The Adjusted Weigh-in Window shall be no less than one (1) hour and not more than two (2) hours before the newly Scheduled Time of the Race.

An “Adjusted Weigh-in Window” is only created if an adjusted schedule is officially posted or published by USRowing. Commonly occurring delays throughout the day are not considered an official adjustment to the schedule.

Lightweight Men:

Max: 160 lbs. (no average)

Lightweight Women:

Max: 130 lbs. (no average)

Coxswains:

The weight of Coxswains shall be determined once **each day** during either the Weigh-in Window or Adjusted Weigh-in Window, but not both. In the event a Coxswain is weighed after the applicable Weigh-in Window or Adjusted Weigh-in Window but before the first Race in which the weight is relevant, the Coxswain may be subject to one of the penalties described in Rule 2-602 (“Types of Penalties”); the presumed penalty for such infraction is a Warning. Failure to weigh-in at any point in time prior to the first Race in which the weight is relevant shall constitute a violation of Rule 4-105.1 (“Coxswain’s Weight”) and result in the Coxswain being deemed ineligible to race.

When an Adjusted Weigh-in Window is created due to a scheduling change, a Competitor may weigh-in during either the original Weigh-in Window or the Adjusted Weigh-in Window, but not both, provided the Competitor completes his or her weigh-in prior to the newly Scheduled Time of the Race and on the same day as the newly Scheduled Time of the Race.

“Adjusted Weigh-in Window”: Should Race Officials adjust or alter the racing schedule for compelling reasons, changing the amount of time between the Weigh-in Window and the newly Scheduled Time of the Race, an Adjusted Weigh-in Window shall be created. The Adjusted Weigh-in Window shall be no less than one (1) hour and not more than two (2) hours before the newly Scheduled Time of the Race.

An “Adjusted Weigh-in Window” is only created if an adjusted schedule is officially posted or published by USRowing. Commonly occurring delays throughout the day are not considered an official adjustment to the schedule.

Coxswains who do not comply with the minimum weight standard must provide their own materials to create deadweight in accordance with the USRowing Rules of Rowing. This weight must be placed in the boat as close to the torso of the coxswain as possible, and is specifically forbidden to be distributed throughout the boat. At any time, before or immediately after the race, the Referee, another Race

Official, or a member of the Control Commission may require the weight of the deadweight to be checked.

Crews must provide their own weight making materials.

Excess clothing, equipment, electronic systems, tools, and other utilitarian devices germane to competition shall not be considered part of the coxswain's weight and shall not be included as part of any deadweight.

Weighted vests cannot be worn in order to achieve the minimum weight.

Coxswain for Men's and Mixed Events:

Minimum: 120 lbs.

Coxswain for Women's Event:

Minimum: 110 lbs.

Boat Weigh-Ins:

All boats shall comply with the following minimum weights:

<i>Category</i>	<i>Weight (kgs)</i>
1x	14
2x/2-	27
4-	50
4+	51
4x	52
8+	96

Test Weighing: Scales will be available during official practice sessions, beginning Tuesday, July 14, 2015. Specific times will be listed in the confirmation packet sent to crews after the close of registration. Test weighing during racing sessions may be allowed at the discretion of the Chief Referee.

If a boat is underweight during test weighing, the added weight is required to be affixed to the boat but may be placed in the shell at the discretion of the crew. Any additional weight added is considered dead weight and may not serve any other purpose in the boat.

Containers used to hold deadweight must be such that the weight inside the container cannot be removed.

Responsibility for the weight of a boat: It is the sole responsibility of the crew that their boat has the required minimum weight.

Note to Coaches: The schedule of official boat weighing sessions, and the selection of boats to be weighed, is determined at the discretion of the Chief Referee.

Equipment:

All equipment used in competition must meet the USRowing Rules of Rowing requirements for equipment.

Each organization is responsible for ensuring that their equipment meets these standards.

Crews must provide their own bow balls.

Bow numbers will be provided to crews when launching to race by Control Commission.

Crews will not be allowed to launch without bow balls firmly attached and mounted on the bow, or the proper bow number securely affixed to the hull.

Crews are also responsible for ensuring their footgear meets the standards in the USRowing Rules of Rowing. "Heel ties" shall not allow the heel to raise more than three inches (7.5cm) above the foot board. Crews arriving at Control Commission with improper heel ties will have to leave the launch area to correct the issue, and pass through Control Commission for additional inspection.

General Schedule Information:

Events with 2 or fewer entries will be removed from the schedule.

The regatta schedule will generally follow the schedule below. This outline is to assist teams with their planning, but is tentative and subject to change.

Events 1-37:

Wednesday, July 15: Time Trials and Heats

Thursday, July 16: Semifinals

Friday, July 17: Finals

Events 38-71:

Friday, July 17: Time Trials

Saturday, July 18: Heats and Semifinals

Sunday, July 19: Finals

The schedule will be finalized once entries have been received.

Time Trials

All crews must have their assigned number securely fastened to the bow of their shell.

Time trials, when needed, will be conducted over a 1,900 meter distance. The top 100 meters of the course will be used as the starting area.

Odd numbered crews will row in lane 5, even numbered crews will row in lane 3.

Crews will be started in alternating lanes every 30 seconds, leaving a 1 minute gap between boats in the same lane.

The Starting Area:

A marshal will be positioned near the 2,000 meter start to direct crews to either enter the course or the warm-up area.

Crews are responsible for staying in numerical order, staying behind crews with lower numbers and in front of crews with higher numbers.

Crews are responsible for maintaining their proper order, and distance within the chute. Crews are also responsible for ensuring they remain in the chute as they approach the start line. Crews failing to maintain their proper position may be delayed, moved to the end of the starting order, penalized, or excluded.

The starter will tell you that you are approaching the start line.

A crew's race time begins once their bow ball crosses the start line.

Passing:

A crew being overtaken must yield to the outside lane to allow the overtaking crew to pass.

Any crew failing to yield will be excluded.

A crew is deemed to be overtaking another crew when it has moved to within one length of open water of the crew ahead.

Referees will give instruction in accordance with the USRowing Rules of Rowing. If it is necessary to exclude a crew during a race, a referee will raise a white flag and instruct the crew to "stop". A crew so instructed shall quickly move out of its lane so as not to interfere with any other crew.

Broken Equipment:

A crew experiencing broken equipment during the race should move to the outside lane.

If breakage happens within the first 100 meters of the race, the crew will be given 30 minutes to attempt to repair the damage. If the repair is completed within the 30 minute window, the crew will be allowed to restart.

If breakage happens outside of the first 100 meters, the crew should attempt to continue travelling down the race course, to the finish line, without hindering racing crews. The crew will not be given the opportunity to restart the event.

Coaches and Coxswains Meeting:

The Coaches and Coxswains Meeting will be held Tuesday, July 14, 2015, at 6:00 p.m.

All crews are responsible for any information disseminated at this meeting.

Practice Times:

Practice times will be published in the confirmation packet sent to crews that have registered for the event.

The course will be available for practice beginning Monday, July 13, 2015, and as time allows once racing begins.

Crews are not to be out on the water outside of posted practice times.

Safety marshals will monitor official practice sessions on the water, and may assess warnings to crews if appropriate.

Due to the volume of the races scheduled at this event, available practice time will be limited. Plan your training schedule accordingly.

Crews will have access to athlete and boat scales for practice weighing sessions beginning Tuesday, July 14, 2015.

Medals:

Entries	Medals Awarded		
	Gold	Silver	Bronze
0-2	Event Scratched from Schedule

Composite crews are not eligible to earn points toward team point trophies.

Crews affiliated with USRowing Development Camps, Pre-Elite Camps, or similar entities are ineligible to receive team point trophies.

Composite Crews:

Crews made up of representatives from different clubs must be entered as composite crews.

The affiliation of each member of the crew must be submitted when the crew is registered.

Competitors are allowed to represent one organization at this regatta.

Composite crews are not required to wear matching uniforms, or have matching oar blade designs.

Foreign Crews:

Foreign crews, including single scullers, must be current members of their nation’s recognized governing body for the sport of rowing to be eligible to compete.

Foreign crews will be allowed to progress through an event based on their finish.

If a crew entered by a foreign club or rowing federation, or a foreign unaffiliated single sculler, places first, second, or third in a national championship event, it shall receive special gold, silver, or bronze medals memorializing the accomplishment, but the national championship medals and the designations and entitlements of national champion, shall be given only to domestic crews according to order of placement.

Foreign crews are ineligible to receive team point trophies.

Inclement Weather Information:

The Chief Referee, USRowing, and the LOC will work together to monitor the weather continuously during the event.

Should it be determined that schedule changes are necessary due to weather concerns, the following weather plan will be utilized:

Communication Plan

Weather-related schedule changes will be announced utilizing the following mediums.

1. Posted on the results board at the regatta site.
2. Announced over the on-site sound system.
3. Posted online via Twitter, Facebook, RegattaCentral, and the USRowing Club Nationals event website.
4. Via text message. Coaches, athletes and parents can register to receive weather related text messages by texting "USRowing" to 313131. This service will only be used for weather-related messages.

Teams are responsible for staying updated on announced schedule changes.

Please direct any questions about schedule changes to USRowing at the registration area.

Schedule Changes will be made with the following priorities

1. Delay racing either later the same day or to the next day, if time is available.
2. Begin racing earlier than previously announced. Announcement will be made no later than 3 hours before racing or 9:00 p.m. the evening before in the case of morning racing.
3. Utilize a time-trial system for a round of the event.
4. Omit a round of the event. The composition of the next round will be determined on the basis of the results of those rounds that have been completed. If grand finals must be omitted, medals will be awarded based on the results of the last completed round of the event.
5. Cancel regatta.

Under no circumstances will races be run after Sunday, July 19, 2015.

Weigh-in Procedures

In instances where inclement weather causes a change in the scheduled race times for events that require the weighing of competitors (lightweights or coxswains), the time in which a competitor must be weighed will be affected as follows:

If the Scheduled Time of the first race is officially changed, then competitors may weigh-in during the original Weigh-in Window **or** the Adjusted Weigh-in Window.

The "Adjusted Weigh-in Window" is no less than one (1) hour and not more than two (2) hours before the new official start time of the first race in which the weight is relevant. The "Adjusted Weigh-in Window" only applies when a new official start time is published and posted. Normal regatta delays do not result in creating an "Adjusted Weigh-in Window".

In the event that a race is rescheduled to a different day, competitors competing in that event will be required to weigh-in on the newly scheduled day, during the Adjusted Weigh-in Window scheduled in accordance with the new race time.
